

5.1.2020

Good morning.

My name is Stanislav Jurcisin and I work for your company at the moment as a waiter at Stier alm cottage. I write this mail in English as my written German is not so good and topic of email is a little complicated, let's say important.

Hope it is not a problem for you at all, if you have some problems you can even translate in through internet.

The reason that I write this email is that I am starting to be upset about few things and as a result of such a situation starting to put my nervousity in the team. This email should be a way how to stop it, should be the way how to prevent bad things that can happen, should be my protection from the things that I will write later about and in case of need should be used for the project mention later as well.

In my private life I do many other things like this job, I studied economics, wrote already some books about capitalistic system from many views, created and explained new system, which is today the only such project with a high quality of explanation at all (my last book should definitely confirm that in the world). The big capitalistic problem (let's say problem of your west world that you brought to my country as well and we have to move for the job to you) is that good workers, many times honest people, finish under the bridge. It is because of bad leading, people not ready for leading the others that create their "reality" for holding the power. I see this thing from a big view and in my book I am writing how I showed or still showing such thing in many other fields (construction, theoretical economics, sport (still in progress)). I just want to write you that this email is not about my recent feeling, it is based on many years of experience and seeing such problems, showing them practically always. My web site should confirm that my words are based on truth. [www.kooperativizmus.sk](http://www.kooperativizmus.sk)

At the work as a waiter I have problems as well. It means that my personality is not very comfortable for your world based on accepting just slaves that do not say their opinion. I say it always, which is the way to have such results as I am writing about. You just do not like the people as I am, push them away from society, but the reality is, that my results in job are mostly fantastic. Want to add that this job I have been doing for many years, have experience from bar, commis and zahl kelner as well. (12-13 years)

During Christmas party in our house one guy said me, that the people in the company talk, that I am not able to do anything. I smiled into his face and asked, what are the things (asked him to say at least one) that I am not able to do. He was very upset, did not answer, I went away. This guy one hour later started fighting that you know about. Words behind the back of the people are nice thing, but there need to be arguments for them, otherwise it can be just lying about the people for the power and job reasons.

Next day I came to my boss at Stier alm (Stefan), explained him what happened, asked him what is the problem as I see the things from absolutely other view (I just thing that in your team I am one of the best if not best). He had no answer, said some strange problems about my job. I taped him, because about creating of reality in your capitalistic world I already know something and I just do not trust your sweet words that very often finish with knife in the back.

As I am already experienced in this job I can tell you, that as everybody else I have good days in the job and worse days. I do my job always without problems, but if I have good days I am like from other world and do it really good. It depends on my private life. Silvester was my good day. In the afternoon was my boss (Stefan) always behind my back. I had station outside and just add that from 12:30 until 2:30 I made about 2000 Euro. Everything was going perfect, I was flying that day, until two people made absolutely clear provocation and came to make problem. This can be explained by my colleagues (the reasons why they refused eating and drinking). When something like this happen during such busy period, it stop you and then you have problem for few minutes. During that few minutes Stefan cashed few of my tables without my awareness. At the end of the day I had a feeling that my money is missing, I had no chance to check it. At the camera you can see that two people that made this problem are friends from Stefan. After that afternoon came Stefan to me and claimed, that I was just too slow and things were not going very good. You can look at results and time (something above 2 hour and 2000 euro) and compare it with other stations and days, just for understanding what kind of job I made that day. I had a good day, flying in my station and it can be seen in statistics. Problem was made out of nothing, absolutely clear provocation from the friends of my boss. All can be seen in PC or camera.

From that day I stopped to talk with my boss about the job organization, but I want to write you what happened. It was or creating your reality for your reasons or he is absolutely not able to make decisions. The second option is very possible when you look at experience of my boss. Based on such story you can come to the fighting during Christmas party and realise, who is responsible for such things. Creating reality based on lies is not a nice thing and making problems everywhere.

To that things I add, that as a person based on things I made in my private life I will have political ambitious in the future. Problem is, that I made them after I gave up catholic religion and refused that world. For that I have many problems in my home based on this way of living and your village is also very religious. Capitalistic-catholic world is spreading lies into the world, I write about it my books without any problems, this world is killing millions of children until today and pretend to be the only right world. Between religious people such thing are moving and spreading very quickly, people try to make something bad for the threat of their "truth" and many people in your village are motivated

to create your reality for pushing me out of society. I want to add this view for understanding the wide and serious topic I am writing about. Truth created in capitalistic world is one thing, statistics and other evidence can show absolutely something else. This way I showed lies in other jobs and fields already, with such a story I can easily show you how you create your reality, what causes such creating of reality and what is the real reality shown in statistics. I have nothing against Stefan, I respect him and like him, I understand that he is one of your friends. I consider him to be a nice guy, but even nice guys with the power reasons changes sometimes. His behavior was absolutely not professional, seeing his experience and you have to understand that it can cause problems to me and I have to protect myself. Before he make so kind of decision be sure, that it is connected with reality, give chance to other side. Many years I am writing about people not ready for the power, people without experience, that at the end throw good workers or people out of society. It is a big problem of capitalistic world which I see for many years and that is the reason that I can write you after short time such things.

This email is for your management and Boris. I do not want to bring problems into the team, but starting to be angry and it is not good for that job. Maybe I am not right, but this things are showing, that something can happen and it can be based on typical capitalistic lies. Hope you understand I have no other chance.

Last thing is your system that I mentioned to Boris. Your software allows to make such a problem that happened. Someone behind my back cashing during big job my tables and I cannot check it. It means that if the team do not like someone, others can easily steal money from colleagues. I do not want to tell that something like that happened, maybe I made a mistake, maybe Stefan made a mistake, but I want to tell, that this is possible in your system. It is easily repairable. System, where everybody has its password, nobody else can go into my own tables, is safe and there will not be such questions anymore. One waiter could be also able to order from table of his colleague in case of need from his own computer. This is also an easy things that can be made in software. But you logically cannot cash tables from the colleague. Today I have to load on my colleague system if I want to help him in case of need, logically I can without his awareness cash tables and it can cause such problems. Your software as a huge organisation mistake, but I told it to Boris already and he knows about it. I just want to mention this huge organization problem that will always bring strange questions and in the future can be easily repaired.

Hope that after reading my email is understandable that I have no other option and do not want that worse things happen. I have many years experience your behavior to the worker in capitalistic system and it causes huge problems all over the world, killing people, killing families and I am fighting against such thing for all my life. I will not stop doing it in Nauders as well.

Last thing I want to mention is, that I understand that you want to be things based on trust of one of each other and I was told it by Boris. But until now I sw something else all over the world and I have no reason to trust you, especially when such things happed. That is the reason, that profesionality needs also safe system. I just do not trust people after few days and hopefully after reading this email you understand why. I add also the receipt from two strangers that created their problem that day. For team is better not to show this email to the others, but in case of need check the truth or created reality.

MFG

Stanislav

Ciao Boris,

Dieses email schreibe ich nur dich, hoffe es ist ok und fair. Naechste aber wird gehen nach Gemeinde ueber uebernaechste nach ministry in Wien, bis ich become alle info ich brauche. Hoffe dieses Weg ist fair und correct, in email ist alles erklaert.

Ich habe gewartet auf Party und moechtete nicht dich stoeren. Auf Stier alm laetzte Monat passierten schlechte Sachen. Zwei Worte "organisierte Mobbing" sind beste fuer was passiert ist. Viele Sachen kann man zeigen durch Cameras und Statistiken, so bitte laetzte 2-3 Wochen nicht weg geben ich kann das brauchen. Stefan und Sabine sind ganz klar dabei. Ich wuerde schlimmere Worte schreiben, aber laetzte Tage sind wir persoendlich ok und ich glaube die verstehen nicht ganz genau was die machen. Ich habe mit beide persoendlich geredet, sie wissen alles. Aber es sieht so aus, dass es ist viel Druock von Dorf oder grossere umgebung oder von irgendwo anders, also ich lasse es jetzt.

Ich sehe das hier ist etwas organisiert(ich habe etwas persönlich gehoert also ich schon sicher bin) und diese Story brauche ich fuer mein Projekt wann etwas passiert. Durch mein Projekt moechte ich zeigen dass in capitalistische Welt(diese situation caipitalistisch-catolisch) haben ehrliche und gute arbeiter ueberhaupt keine Chance zu ueberleben. Ich hoffe dass du siehst auch die qualitet von Kelner hier und dass ich werde das zeigen warum so etwas passiert. Mit Gesellschaft Loege und schlechte Sache von catolische Volk habe ich viele erfarungen von zu Hause und spaeter moechte oder kann das vergleichen.

Als etwas ganz klar passiret und Druock kommt auch von Dorf, ich brauche von dir ein bestatetigung ueber moeglichkeit arbeiten auch naechste winter als Zahl Kelner genau auf Stier alm. Stier alm ist mein Spielplatz und auch wann die Leute meachen schlechte Sachen zu mir in mein privat Leben, ich bin immer beste hier. Alles kan man zeigen, aber must man gleich anfangen. Ich brauche dass du sprichst mit Stefan und Sabine und ich become schriftliche bestaetigung in eine Woche. Fuer manager ist nach halbe Season kein problem so etwas sehen und wann die sehen es nicht, ich kann immer die Augen aufmachen. Mit cameras, statistiken und alle Sachen die passieren danach und auch in Privat Leben.

Capitalistisch-catiolisch geselschaft ist schlimmste was gibts in dieses Welt und wegen Sachen die passieren in dieses Welt sterben milionen Leute und Kinder von hunger auch heute also ich hoffe dass du verstehst dass ich werde nicht frennen. Hoffe dass du genug intelligent bist zu verstehen ueber was schreibe ich. Bitte bis dein bestaetigung keine video von cameras weg geben, Statistiken auch. Ich werde brauchen ganze Story und es wird sehr interessant. Es ist sehr gefaehrlich dass hier etwas passiert, aber das ist kein privat firma(diese Sachen passieren in ganze capitalistische welt, fuer euch ist es manchmal normal, aber diesmal augen werden sicher geofnet). Ich mache alles moeglich alle info zu bekommen.

Wir reden Persoenlich auf Stier alm, kannst du mich fragen was versteht man nicht, hoffe so ist das ok auch fuer dich. Das bleibt zwischen uns, hast du meine garantie. Du kannst sprechen mit Stefan und Sabine und ich brauche bestaetigung fuer naechste Winter(von dir ist das sicher), so bin ich sicher, dass nichts schlechtes passiert und die aufhoeren gleich. Oder machen Ordnung, nicht Konflikten. Dieses email aber ich brauche als bestaetigung spaeter, also du verstehst dass anders gehts einfach nicht.

Wir sehen uns oben. Das ist kein Erpressung, dass ist mehr mein persoenliches und wahrheit protection. Hat mir Probleme gemacht diese Spiele die passierte und ich bei diese Sachen habe ich keine Grenzen.

23.2.2020- dlhá verzia

Good morning.

My name is Stanislav Jurcisin and I am working on the cottage Stier alm for the Bergbahn company, which is under your control. I am writing in English, as my German is not so good for explaining such things. In case of problems you can translate it through internet, so hopefully it is not a big deal at all.

I want you to take control over the situation in my job because of later mention reasons and to allow to investigate and show the truth. The reason mentioned later is hopefully enough to do so. Hope you like the truth, you allow me to have informations I need and ask you through this email. And it is also your need to know it, can help you to grow up. For you, for your children, for next generations and simply just because truth is important. This email and all conversation I might use for later mention project needs.

I am working on one project, where I want to definitely explain real impact of capitalist system on the society. I already made a proposal for the new system and explained it through the movie and economical statistics. In that way I am much further as any politic or economist in the history. Very strange words, but everything is explained on my web site [www.kooperativizmus.sk](http://www.kooperativizmus.sk).

I made such thing as a free person. Person that was always himself, never did something plastic for being nice for certain people, looking for the facts and working with them. One of the fact is, that during that period I spent long time in Austria working as a waiter and I had no chance to hold a job, as a free person I was fired from everywhere. The reason was just one thing. Capitalist system produces people in leadership, that are able to accept just slaves without thinking, saying what they want to hear and not the truth, people that are demaging the society.

Many years I was chicaned(gemobbed auf deutsch). People were organizing possible and impossible lies and looking for the way, how to put out of the society someone, who wants to hold the facts and not your personal subjective feelings. Last summer I came to Nauders and here happened strange things again. Here the things came even further, as I found a girlfriend here and was really working good. But I was not slave of my boss, he did not accept me and was doing everything to split us, to destroy even my private life and simply was doing pressure to show, that I am not acceptable in your world.

Winter I started to work at Bergbahnen and the things were finished. Combination of big pressure from the people around my girlfriend (where are the people working for that "manager" and from my home as well, that are motivated from my home area because of under mentioned reasons) Connected with my nervosity that was coming after chicaning at work we splited. After being in Nauders I can write one more thing. The people did not enter just my job, they were able and did not hesitate to destroy my private life and this way trying to do bad things. Of course damage my work and make me weaker. Things went further and I want them to be discovered together with my political project. Transparency and holding facts is simply the way I came to my very future project.

At Bergbahnen are happening the same things as in every job in capitalist system leded by the people that have not grown for leadership. Every person that has not learnt how to respect the other people, will be just playing with the others, do the conflicts and fire the ones, that want to have free mind. Here I have the boss that has the same previous experience as every capitalist in this world and this is the reason that I can show something here. You are fortunately not a private company and I have possibility to ask for the real info and try to show the reality of your world.

I want to remind you that there was a huge pressure last two weeks in January that are mentioned in the emails I am adding and I was resolving that things. My leaders were even talking together after my back, that I could hear, that I do not match here. People, that are not able to work were talking about someone, who is very experience in this job and it is not problem to show it, that he is not good. Funny, but it is how your western world works in reality. Every plastic conflict that my colleagues did were supported by team leaders and finishing with the smile into face. That period was important for breaking up with my girlfriend and such way you helped my quality of work going down. Last time there was my colleague that told something and he was right(last week). He lied, made obvious provocation in front of the people the way, that I even do not remember that something so obvious has in my service experience happened. He was right until the time I told, that camera and statistics say something else. Suddenly he was not right and problem was resolved. But he and my leaders were trying again to lie about me without any doubt. He and some other guys are drinking during the work or working after drinking and making conflicts. But of course, main problem is the way how things are resolved, which produces everything.

At Bergbahn I is happening the same things as in every capitalist company. Lies, splitting and smiling in the face and destroying people. This is how your society live, this is what you bring to the rest of the world and this is the reality about capitalist world. Here is also a combination with the religious fanatics that pretend to take care of the families and do something good, but using just lies and mobbing. My emails in attachments explains more.

It is a huge risiko, that you are organizing here another bullshit. Your society with combination of the people from my area, that is the same religious fanatics(also catholic), you already destroyed my private life here. You are obviously trying to put me out of society, but problem is, that in this cottage, I am one of the best waiter(I think that here I am obvious the best worker from zahlkelner) even when you did what you did by now. And this I can show through the cameras and statistics. Otherwise you will be saying what you feel and your ability to accept people do not allow you to be fair. It is just not your way of living. But unfortunately this way you are doing horrible things and it needs to be shown finally.

My email is maybe strange, but it does not matter. You can organize many things. Provocations from the people coming from the village(mention in email), my lower umsatz by many ways, split and smile into my face. There are many ways of doing such things. Until I will not have the videos and the statistics from this season, I will not have a truth, as in the case that happened this week. You are not fair, you are playing with me at Stier alm and Nauders in general and I want to show this reality of capitalist world. With all the facts that happened before and my project of course.

This is not for email and I cannot explain everything. This is for a book, I tried to write everything briefly. I just want to add, that the same things I showed in other activities and there is still another one that I want to show (in sport) and that is also the reason of huge pressure that comes from my catholic area in Slovakia. People just want to cover something and making something bad to me is a way how to become a national hero in that area. It is just how religious fanatic world work everywhere. Lies and lies.

Last thing I want to add is, that I want to use this experience and facts that happened to compare the way of life of the religion fanatics areas. Their way of lying, manipulating with the things, covering under nice words as the love and family. As the same things with touching my private life are happening there as well. They did something similar(as a former almost professional football player I was not able to play village competitions, where was mobbing, touching private life and the similar things as this time here).

Your society is responsible for millions of destroyed families, millions of children dying from not having anything to eat. Just because the only way of living for you is playing with people, mobbing and covering facts. Videos and statistics in this case definitely shows the truth and the reality in this activity that I do many years and where I am already quite good. Hope you understand the need of that and I do not have to explain more.

This email is not a personal thing. Thanks to Boris that he was able to resolve all the problems I had. All of them stopped after my pressure which means, it is right way to do so. Last days came problems with zahl kelner and their provocation which I want to resolve by this email, show the reality and real reason(videos). Especially your way of resolving them, which is the most important thing.

Stefan is a person without experience. He has not learnt anything about respecting people and has no chance to lead a team in a respectfull and peacefull way. Many conflicts are supported by him or simply he is doing nothing to resolve them and this way supporting them. He is just not professional, but using his subjective feelings very often. But it is a fantastic possibility to show, how each capitalist that has a power without real experience and behavior to others from the same equal position grow. This is a state company and I have possibility to make pressure on him the way I did, which is a possible way for him to improve in those things. Even if I do not believe in such a growth too much, but still better as absolute power of capitalist. I am using him for showing his obvious mistakes and what he causes in general. Nothing personal, good guy, but if you do something bad to someone and playing with people, you have to wait an answer. And here I have evidence for my words that I am asking from you.

So nothing personal, this is simply how capitalist world works and I want to look deeply into it. All my project is based on statistics, facts and the things I can show. I do not believe what the people say just because I already saw something in my life and they are often pushed to say something that leaders want to hear. So this way I want to avoid another "virtual reality" made by your needs that kills others.

I understand that it could be much worse with another professional slave manager built by this system as well. I was talking about it with Boris and here we understand each other. But from now this is going above him, he needs to

understand connected with what was happening there towards me, what happened in Nauders in general, that I already have no other chance. Here is again a big possibility, that someone is preparing field for my firing from work, where I am simply better from the others and just unfair and cruel things are stopping and demaging my quality of work, what is your fault. Of course connected with the whole religious and capitalist area. This will be a part of analyse in another place, where I need all evidence I am asking from you now.

One more thing I want to add. Hopefully this email and facts about last extreme arrogant provocation with unfair resolving and evidence what happened stop my colleagues to do those things for the rest of the season. I am inviting you to come to see those workers, how they look like after hard working and no possibility to play and damage work of the others. It can open your eyes and see your world that you are bringing to the other countries from the real view. But this is just proposal for your personal growth.

In case I will not get any official answer within one week, my next email is going to your government and ministry. I hope you understand how necessary it is. I came here because I have no other chance. You came to my country and slaved it. For you is fun to play with the people and this is the only way how capitalist world can work. It is your only energy and this is moving your society. But it is not funny for many people, for many nations that you destroy their lives. Causes simply huge bad things everywhere.

For me is also very important to know that I get those things and I can somehow organize even my private life, do some investments there just to show very deeply what is the reason of demaging it from many people with the power that has not learnt respect the others. Simply all capitalist in this world and people without experience in leadership positions do so and this needs to be shown somehow.

Once more again....

I AM OFFICIALLY ASKING YOU TO SAVE ALL THE VIDEOS FROM THE SEASON AND TO GIVE THEM TO ME. ALSO ALL THE STATISTICS. WHEN FIRING HAPPENS AGAIN, I WANT TO USE IT FOR EXPLAINING, HOW IT WORKS IN CAPITALIST SOCIETY IN REALITY. IT IS A SOCIAL NEED AND I WILL DO EVERYTHING TO GET ALL THE POSSIBLE INFO FROM THIS SEASON AT STIER ALM TO SHOW THE REALITY OF THIS SLAVERY SYSTEM. WITH THE FACTS THAT HAPPENED BEFORE THIS WILL BE A FANTASTIC CONCLUSION OF YOUR WORLD.

I AM ALSO ASKING YOU FOR THE VIDEOS AND STATISTICS OF THE LAST WEEK (17-23.2), TO SHOW LAST HORRIBLE TRYING OF PROVOCATION WHEN HAPPENED NOTHING. TO SHOW HOW YOU PLAY WITH THE PEOPLE, BEHAVING DIFFERENT TO THEM BASED ON YOUR PERSONAL FEELINGS AND NEEDS, SMILING FROM OBVIOUS CLEAR MOBING. SUCH THINGS HAPPENED MORE TIMES DURING THE SEASON AND I HAD NO TRUTH UNTIL I MENTIONED STATISTICS. THIS ONE I WANT TO SAVE AND SHOW FINALLY. I WANT TO SHOW THE REALITY OF THE QUALITY OF WORKERS AND YOUR HIERARCHY. ON THE TOP THE PEOPLE WITH NOT MUCH ABILITY TO WORK, BUT HUGE ABILITY TO PLAY WITH THE OTHERS SUPPORTED BY THE PEOPLE FROM THE VILLAGE. THE VIDEOS WILL SHOW THIS FACT AND I WANT TO HAVE ALL THIS MATERIAL FOR THE FUTURE TO ENSURE, THAT I WAS NOT CUTTING VIDEOS AND FILMS BUT I WAS REALLY TRANSPARENT. I WANT THEM TO BE FOR DISPOSALL AFTER SAYING MY CONCLUSIONS. MOBING AND PLAYING WITH PEOPLE IS THE MAIN PART OF CAPITALISTIC WORLD. IS CAUSED BY BAD LEADERSHIP AND THE FACT, THAT PEOPLE NOT READY FOR SUCH THINGS FROM PERSONAL GROWTH DECIDE ABOUT THE THINGS THAT SHOULD NOT DECIDE. YOU CAN SEE IT THROUGH THE STATISTICS(MY MOVIE AND EXPLANATION OF NEW SYSTEM IS BASED ON COMPARING DEMOCRACY IN THE ECONOMIC SYSTEM AND ECONOMICAL GROWTH). THIS IS WHAT I NEED TO SHOW IT IN THE REALITY AND WORK. I WANT ALSO TO COMPARE TWO DIFFERENT CATHOLIC AREAS AND TO SHOW REAL IMPACT OF THAT WORLD AS WELL. YOUR VILLAGE IS CONNECTED WITH THIS PROJECT, MANY THINGS HAPPENED HERE AND IT IS ALSO FAIR THAT I DO IT SUCH A TRANSPARENT WAY. IN CASE I WILL NOT GET THE ANSWER, I WILL BE WRITING TO YOUR GOVERNMENT AND MINISTRY. THIS PROJECT WILL BE USED FOR POLITICAL REASONS WITH THE NEW ALTERNATIVE FOR CAPITALISM, CALLED COOPERATIVISM.

MFG

23.2.2020 – krátka verzia

Good morning.

My name is Stanislav Jurcisin and I am working for your Bergbahnen company at Stier Alm. As my previous email is very long, I do a shorter version.

I want from gemeente to have control above situation in my job because of later mentioned reasons. To let to investigate my words and show reality and the truth about capitalism at all.

As a result of my huge experience from many jobs I was able to make a proposal for alternative to capitalism. During long period of doing such a project I was working in service and from many jobs was fired just because the people in

this capitalist world in leadership position are not able to accept free minded people, what was necessary for my project. Capitalism is a dangerous system that causes millions of people not having anything to eat and practically all world problems. Just because the people in leadership positions do not learn how to respect other people, but just how to play with the others.

Experience in Nauders showed, that those people connect even private life when is necessary. Do everything to put people like me out of society. Problem is, that in job I am doing now I am better worker as the others and it can be shown. It is simply almost everywhere and people search for something plastic or not existing to put me out of job. I see it again that my boss is organizing my firing as every capitalist I was working for and I need to show those facts this time finally in case of that.

I want to use them for showing, that bad leadership stops the society, put out the best workers, causes lower effectivity. In my project I did explanation of the new system through comparing level of democracy in economical system and economic growth. I showed the same thing in construction company in Stockholm. I am definitely going to show it in sport and now I need all the info for showing this reality in service. I just want to hold the info from now, because I do not expect fair conclusions. It simply do not exist in capitalist world, it is all about mobbing, playing with people, smiling into face and demaging lifes of the others. So this is not a first time I am doing something like that, I see into things very deeply through facts and statistics. Without them I will not have any possibility to protect myself.

I need to save all the videos and statistics from Stier alm from this season. I need it also from the last week (17-23.2) for showing reality of your way of resolving problems and conflicts. This all I want to connect with strange things and pressure in my private life, compare two different catholic areas and their ways of covering truth and manipulating.

I need your official answer within one week, otherwise I need to try to push through government and ministry.

Project is just too important and showing reality is a big social need from my point of view. Now I have a big possibility to show this mechanism of lies and manipulation in capitalist slavery system even in service and I want to hold it. It is necessary for me to calm down as well.

More explains my previous email, hopefully it is ok like that as well

Mit freundlichen Gruesse

Stanislav Jurcisin

24.2.2020

Good morning,

I am writing you again regards to yesterday email and our speaking with Boris and Georg. I told Boris that I will need your official answer on the issue and best way is to do it as soon as possible.

There where few questions that you do not understand and first I explain them. The first one is, what has catholic or simply religioin world to do with the issue.

I come from a very religious family and I gave up that world. Without that I would not be able to move my thinking to the alternative to capitalism <https://www.kooperativismus.sk/kniha-kooperativismus-online/>, and to the explanation of that <https://www.youtube.com/watch?v=Jgo8xIODLn4&t=1s>.

Today when I come to discussions with any economist or politics, they have no chance to make some arguments against me. Just because my thinking is based on facts and not on subjective feelings and I had some discussions already and they were running away. But such a person, that give up religion, is for religion fanatics dangerous to go to politics. It is just not a good example. People in my home were doing cruel lies and things to stop me and it seems, that it moved also here. Between religious fanatics is something like that(threat) moving very quickly and people know about me. It is how this world of lies and manipulation works. My catholic community at home is doing bad things that I wrote in another books on my web site and here were very strange provocations from the people that you knew and I wanted to show it through videos.

Another reason is, that zahl kelner atr stier alm are connected with your families or are from here. It means, people have motivation to throw away someone, that is a little on different level. My colleagues are angry when they work with me as it is clear that almost in everything I am quicker, not tired from work etc.

Another question was, why mobbing is being made exactly on me. It is caused by the fact, that I mentioned before. The reason I grew up as a real worker is, that I behave the same to everyone. And a boss that has not learnt to respect people from equal position has problem with such people. During our conversation *explained, that there were many conflicts on me without resolving*. They grew up because it needs to be resolved and said. It is the most important task for every boss. If it is not like that, the people from competition reasons do bad things and I look like someone that make conflicts. My protection is logical, there is no other way.

In emails is everything step by step. I do this because the mobbing is base part of capitalism and your society. My firing happened in every job and here in Nauders I was not accepted by boss even if I was working really good because of personal reasons. That person has logically motivation to do something in my private life and make pressure and he was doing that through his workers. I will write about the facts on another place, just want to give you motivation of doing bad things from capitalist, that everyone grow without learning how to respect others. I am taking society problems and motivation of the people in area. There is no chance to protect people that honestly work from your manipulation, destroying others and from your lies. This is also the reason I am trying to write gemeinde and maybe government, to try to do it this way. If this way do not work, your society is a lost society based just on lies without chance to improve. Hope it is logical. I am showing you my books and movies to ensure, that I am very inside of that problematics, do not trust your opinion, but want always show the facts. More conflicts we had at Stier alm were my fault, until I said that statistics and videos say something else. People were simply lying into my face a tried to make a fool from me. As I know this mechanism in every capitalist company, I am asking you videos and statistics to show reality.

Our conversation is taped, I explained everything, hopefully it was enough to ensure that something bad was happening and your village and religious society connected with habits to play with the people made me strange things, destroyed my work and there is a huge risiko that it finishes the same way as in every capitalist company, where is no chance of protection. With firing and eliminating someone, that is on another level of working a cooperating without fighting with others as your world produces.

As I wrote you, I showed this things in another activities, the same mechanism works everywhere. I was blamed from making conflicts until I showed reality through statistics and facts. Here is the same, my truth can be shown there, but here is a little different that my team can work with nervosity when I work with them because of mentioned reasons and it can bring a lower umsatz for a while. But as I said, it was also caused by your behavior what could be shown through the things, that could confirm my words.

So videos I needed for showing reality and confirm my words. I was watching this mechanism in service for many years and many teams are based just on mobbing someone. It just bring the energy. I say, that something like that was happening here absolutely clearly. My emails confirm, that I was asking videos more times to confirm, that my words are really right You never gave it to me and today I was said, that it just does not exist. It is really hard to believe and there is a huge risiko that there is a trying to cover the truth and throw someone, that just want to work and is at his job already good, out of your world. Just because the slavery system and slavery world throw such people under the bridge.

If my word are right, than I have evidence, that your society is a real threat for the world. You lead the others, but you cover truth, do not accept free minded people and connected with my project you kill chance for living of millions people. Of course pretend to be the best in the world, as every religious society. But based just on lies and manipulating, my home experience is the same as this one. This way I hope you understand, why is this issue important and in case of need it needs to go so high as possible.

I want that also gemeinde, as I am going to write about the whole society nets and connections, that conclusion was, that videos do not exist and there is no possibility to get to the statistics. I wanted to show many things through that material and many things could be cleared.

**Is really all films immediately putted away???? This is my question, try to make official answer and I want that this conclusion is known also at gemeinde. Hopefully I explained why. I would need official definitive answer.**

My world is based on facts, your personal opinion is not important for me. I want the truth about situation in capitalist countries and will do everything to show it. Your habits damage lives of too many people in this world and connected with my project I hope, that it is understandable.

MFG
